

ALLIANZ PNB LIFE INSURANCE INC.

OPTIMAL POWER PESO

PRODUCT HIGHLIGHT SHEET

1. WHAT ARE YOU INVESTING IN AND WHO ARE YOU INVESTING WITH?

OPTIMAL POWER PESO is a single-pay peso-denominated variable unit-linked (VUL) life insurance plan of ALLIANZ PNB LIFE INSURANCE, INC. This product brings together the opportunities of investing in expertly managed funds while providing you with lifetime insurance protection.

2. WHAT ARE THE KEY BENEFITS FROM THIS INVESTMENT?

Life Insurance Component:

- This plan provides life insurance coverage. Since the Level Death Benefit option was chosen, the death benefit is the higher of the Total Fund Value or the Total Sum Assured. The Total Sum Assured is 125% of Single Premium plus 125% of each Subsequent Top-Up Premiums; less 125% of each partial withdrawal. Note that the Owner may elect an Insured other than himself.

Investment component:

- The Total Fund Value is based on your premiums less charges; less withdrawals; plus earnings of the Fund/s chosen.
- Your investment is used to purchase units in any of the available funds. Each fund's performance may vary and presents a different level of risk for the client.

3. WHAT ARE THE KEY RISKS OF THIS INVESTMENT?

OPTIMAL POWER PESO is a VUL product which is an insurance policy with an inseparable investment component which allows the policyholder to invest in any of the available funds. Like all other financial products, VULs have their advantages and trade-offs.

As an investment-linked insurance product, the policyholder must understand and realize that the product is subject to certain risks, such as, but not limited to investment, credit, currency, interest rate, liquidity, mark-to-market, regulatory, and taxation risks which could affect the account or fund value of the whole VUL policy.

Allianz PNB Life Insurance, Inc. is guided by the investment policies approved by the Insurance Commission (IC) including the IC-issued "Guidelines on Variable Life Insurance Contracts". The supervision and regulation by the IC, however, does not guarantee the investment returns nor protection of the VUL policy against capital loss.

For a better understanding of the nature of these aforementioned risks, a table of Definition of Risks is provided in the succeeding page.

4. WHAT ARE THE FEES AND CHARGES FOR THIS INVESTMENT?

The following are the charges for this investment:

- Premium charge – 6% of Single premium
- Initial set-up charge – PHP 1,200 charged to Single premium
- Top-up charge – 6% of Top-up premium
- Top-up set-up charge – PHP 600 charged to Top-up premium
- Monthly insurance charge – This charge is for providing insurance coverage on your policy and charged to your Total Fund Value by selling the appropriate number of units. This charge is also expected to decrease as the Fund Value increases.
- Fund management charge – This charge is already reflected in the published Net Asset Value Price per Unit (NAVPU) and is based on an annual rate of the fund.
- Partial withdrawal charge – You have four (4) free partial withdrawals per policy year. Subsequent withdrawals will be subject to a fee of PHP 200 each.
- Fund switching charge – You have two (2) free fund switching allowed per policy year. Each subsequent switching will be subject to an administration fee equal to the higher of PHP 200 or 1.0% of the amount switched.

Subject to prior approval by the Insurance Commission, the Company reserves the right to impose additional charges or change any of the above-mentioned charges by giving the Owner at least thirty (30) days prior notice.

5. HOW OFTEN ARE VALUATIONS AVAILABLE?

Fund valuation will be on a daily basis. The frequency of the Fund valuation is at the absolute discretion of the Company, but will not be less frequent than monthly. This is published in a major daily newspaper and company website at www.allianzpnblife.ph.

6. HOW CAN YOU EXIT FROM THIS INVESTMENT, WHAT ARE THE RISKS AND COSTS IN DOING SO?

If you are not completely satisfied with the policy that you purchased, you may return it within fifteen (15) days of receipt of policy together with a signed written notice requesting cancellation. After this period, you may surrender this Policy and receive the Total Fund Value based on the next NAVPU. You may also withdraw a portion of your Fund or switch from one Fund to another, subject to the charges stated above.

7. HOW DO YOU CONTACT US?

Allianz PNB Life Head Office is at 7th Floor, One Ayala South Tower, #1 Ayala Avenue corner EDSA, Ayala Center, 1226 Makati City, Philippines Trunkline No.: (63 2) 8818-HELP (4357); Domestic Trunkline No.: 1-800-10-818-HELP (4357); Fax No.: (63 2) 8818-2701; Email: info@allianzpnblife.ph. Allianz PNB Life Regional Business Centers are also located in Manila, La Union, Pampanga, Cebu, Iloilo, Davao and Zamboanga. Please visit www.allianzpnblife.ph for more details.

8. WHAT OTHER IMPORTANT INFORMATION SHOULD YOU KNOW BEFORE YOU INVEST?

Financial products of Allianz PNB Life Insurance, Inc. are not insured by the Philippine Deposit Insurance Corporation and are not guaranteed by the Philippine National Bank and Allianz S.E.

DISCLOSURE OF CONFLICT OF INTEREST

The Manager of the available Funds makes investment decisions based on the circumstances of each Fund and independently of decisions made for other funds. There are times when the Manager may take the same investments for a Fund and one or more funds. This may create a conflict of interest if there is only a limited amount of the investment available, or if the investment is purchased at different times or at different prices for different funds. If this happens, the Manager will attempt to allocate the investment fairly between the Fund and other funds. Factors the Manager considers in allocations include the size and timing of previous allocation, whether the security meets the objectives of the respective portfolios, the relative portfolio size and the rate of growth of the portfolios.

STANDARD DISCLOSURE STATEMENT: THIS IS NOT A DEPOSIT PRODUCT. EARNINGS ARE NOT ASSURED AND PRINCIPAL AMOUNT INVESTED IS EXPOSED TO RISK OF LOSS. THIS PRODUCT CANNOT BE SOLD TO YOU UNLESS ITS BENEFITS AND RISKS HAVE BEEN THOROUGHLY EXPLAINED. IF YOU DO NOT FULLY UNDERSTAND THIS PRODUCT, DO NOT PURCHASE OR INVEST IN IT.

GROWTH-ORIENTED

PESO MULTI-SECTOR EQUITY FUND (PMSEF)**FMC: 2.00%**

The Fund is a peso denominated equity fund that seeks long-term capital appreciation by investing in a diversified basket of stocks listed in the Philippine Stock Exchange that are considered highly liquid, actively traded, and belong to the top companies in each of the six (6) sector indices.

PESO DYNASTY EQUITY FUND (PDEF)**FMC: 2.00%**

The Fund is a peso denominated equity fund that seeks long-term capital appreciation by investing in a customized basket of stocks listed on the Philippine Stock Exchange (1) that are considered highly liquid and actively traded; and (2) of companies owned and/or controlled by business of Chinese ethnic origins.

PESO-HEDGED INCOME AND GROWTH DIVIDEND PAYING FUND (PHIAGDPF)**FMC: 1.95%**

The Fund aims to capture multiple sources of income that includes participation in the upside potential of equities at a potentially lower level of volatility than pure equity investment. It shall apply a hedging mechanism via forwards that will minimize the impact of PHP-USD exchange rate fluctuations on the underlying Dollar-denominated fund investment.

PESO EQUITY FUND (PEF)**FMC: 2.20%**

This Fund aims to attain long term capital growth, investing in a concentrated portfolio of stocks listed in the Philippine Stock Exchange.

PESO OPTIMIZED DIVIDEND EQUITY FUND (PODEF)**FMC: 2.00%**

The Fund is a peso denominated equity fund that seeks dividend income and capital appreciation by investing in a customized basket of no more than twenty (20) companies listed in the Philippine Stock Exchange with 1) a history of regular declaration of dividends; 2) that have recently provided the highest dividend yields; and 3) are considered very liquid and actively traded.

PESO-HEDGED GLOBAL SUSTAINABILITY EQUITY FUND (PHGSEF)**FMC: 2.20%**

The Fund aims to achieve long-term capital growth by investing in Allianz Global Sustainability Fund, which is geared towards generating long-term capital growth by investing in global equity markets of developed countries with a focus on companies with sustainable business practices namely, business practices which are environmentally friendly and socially responsible. The policyholder's Peso funds will be invested in a USD-denominated underlying asset. The fund shall apply a hedging mechanism via forwards that will minimize the impact of Peso - USD exchange rate fluctuation.

PESO-HEDGED ASIAN MULTI-INCOME PLUS DIVIDEND PAYING FUND (PHAMIPDPF)**FMC: 2.00%**

This Fund aims to achieve long-term capital growth and regular dividend income by investing in the Allianz Asian Multi Income Plus Fund, whose objective is to provide investors with long-term capital appreciation and income through investments in equity and bond markets in the Asia Pacific. It shall apply a hedging mechanism via forwards that will minimize the impact of PHP-USD exchange rate fluctuations on the underlying dollar-denominated Fund investment.

PESO-HEDGED SYSTEMATIC GLOBAL EQUITY DIVIDEND PAYING FUND (PHSGEDPF)**FMC: 2.20%**

The Fund aims to achieve long-term capital appreciation and regular income by investing in the BlackRock Systematic Global Equity High Income Fund which invests globally in equities of companies with no prescribed country or regional limits and sells calls on equity indices. It shall apply a hedging mechanism via forwards that will minimize the impact of PHP-USD exchange rate fluctuations on the underlying Peso-denominated fund investment.

PESO-HEDGED GLOBAL REAL ASSETS DIVIDEND PAYING FUND (PHGRADPF)**FMC: 2.00%**

This Fund aims to achieve long-term capital appreciation and regular income by investing in BlackRock's BSF Global Real Asset Securities Fund Class D3 USD which invests globally in equity and equity-related securities of companies, the main business of which is in the real estate and infrastructure sectors. It shall apply a hedging mechanism via forwards that will minimize the impact of PHP-USD exchange rate fluctuations on the underlying Dollar-denominated Fund investment.

MODERATE

PESO BALANCED FUND (PBF)**FMC: 1.75%**

This Fund aims to achieve long term capital and income growth, by investing in both Philippine Peso-denominated fixed income securities and a concentrated portfolio of stocks listed in the Philippine Stock Exchange.

DEFINITION OF RISKS

Investment Risk	This risk refers to the probability or likelihood of occurrence of losses relative to the expected return on any particular investment.
Credit Risk	This risk refers to the probability that a counterparty to an investment may not be able to fulfill its obligations accordingly, resulting to an adverse effect on the value of a money market or debt security such as a bond.
Taxation Risk	This risk refers to the probability that the application of tax on investment may differ from jurisdiction to jurisdiction and tax treatment may change before the maturity of redemption date of an investment. For more information on the effects of tax on the acquisition, ownership or liquidation or investment funds, it is best for the customer to consult a personal, independent tax adviser.
Currency Risk (or Foreign Exchange Risk)	The risk refers to the probability that the value of investments held in foreign currencies, such as the US Dollar, may fluctuate against the local currency or Philippine Peso due to changing interest rates and inflation rates. This risk may also occur when foreign governments restrict currency exchange, impeding cash distributions or processing of fund redemptions.
Interest Rate Risk	This risk refers to the possibility that the value of investments in fixed-income securities such as bonds may rise and fall rates contrary, when interest rate rise, the value of an existing bond generally falls.
Liquidity Risk	This risk refers to the possibility that assets or securities may not be bought or sold within a desired time and at fair value, which in turn may affect the value of an investment or satisfy investment purchase and redemption services of the Company to its policyholders.
Mark-to-Market Risk	This risk refers to the probability that the market value of an investment will rise or fall based on overall market conditions. The value of the market can vary with changes in the general economic and financial conditions as well as political, social and environmental factors.
Regulatory Risk	This risk refers to the probability that certain laws and regulations applicable to investments, including income tax and securities law, and the administrative policies and practices of regulatory authorities may change in a manner that adversely affects the value of an investment.

STANDARD DISCLOSURE STATEMENT: THIS IS NOT A DEPOSIT PRODUCT. EARNINGS ARE NOT ASSURED AND PRINCIPAL AMOUNT INVESTED IS EXPOSED TO RISK OF LOSS. Allianz PNB Life's OPTIMAL POWER PESO is a single-pay variable unit-linked (VUL) life insurance plan that brings together the opportunities of investing in expertly managed funds while providing you with lifetime insurance protection. This plan features a Level Death Benefit Option type where your beneficiaries will receive the higher of the Total Sum Assured or the Total Fund Value. The Total Sum Assured is 125% of the Single Premium; plus 125% of each subsequent Top-up Premiums; less 125% of each partial withdrawals. The living benefit is the Total Fund Value of the policy which can be withdrawn in part or in full. The Total Fund Value is based on your premiums less charges; less withdrawals; plus earnings of the Fund/s chosen.

NOTES:

- 1. The projected benefits shown are for illustration purposes only and are not based on the past performance nor do they guarantee future performance of the different Fund/s to which the Policy is linked. Since the fund performance may vary, your fund values are not guaranteed and will depend on the actual investment performance. The Fund Value of the policy could be less than the total premiums paid.
- 2. The investment returns are net of taxes and investment deductions.
- 3. At the time your Fund Value is insufficient to cover all monthiversary charges, you will be required to pay additional premiums to keep your policy in force.
- 4. A copy of this proposal will be delivered to you together with the policy contract once the policy is issued. While we have made every effort to ensure accuracy, errors and omissions may have occurred in the preparation of the proposal.

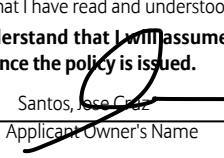

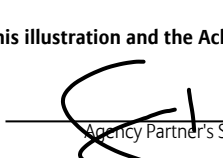

*Fund Management Charge (FMC) shall be deducted monthly from the investment fund.

Cooling-Off Period

If you are not completely satisfied with this policy, you may return it to our Home Office or any of our branch offices within fifteen (15) days after receipt of the Policy document, together with a written notice, signed by you, requesting cancellation. The Policy document is considered delivered to and received by you on the date indicated in the Policy Receipt Acknowledgement. On such cancellation, the amount refundable shall be the sum of the Insurance Charges plus the Premium charges plus the Initial set-up charges paid from the Policy Date plus the Total Fund Value. Any outstanding Contract Debt will be deducted from the amount refundable. The Total Fund Value will be calculated on the next Pricing Date immediately following the date the receipt of the written notice on your request for Policy cancellation, subject to the Cut-Off Time.

DECLARATION OF UNDERSTANDING

I confirm that I have read and understood the disclosures in this illustration.
I fully understand that I will assume all investment risks associated with the policy. This illustration and the Acknowledgment of Variability shall form part of the insurance contract once the policy is issued.

The projected returns on investments shown are for illustration purposes and do not represent maximum or minimum return on your fund value.

The investment return assumptions are net of taxes and investment deductions. A non-guaranteed Loyalty Bonus is assumed awarded at the end of every 5 years starting at the end of the 5th Policy Year. The Loyalty Bonus is 0.5% of the average monthly Total Fund Value of the preceding five years.

*Total charges (5th column of above table) are based on 6% investment return scenario.

1. Premium charge is equal to 6% of the premium paid or PHP 6,000.00
2. Initial Set-up Charge equal to PHP 1,200.00.
3. Monthiversary charges deducted from the Fund include cost of insurance and rider (if any) based on the Net Amount at Risk, insured's sex and attained age. The projected COI charge for Year 1 is PHP 921.81.
4. All top-ups shall be subject to a premium charge of 6% and set-up charge of PHP 600.00.

These charges are subject to change by the Company, and prior approval of the Insurance Commission.

DECLARATION OF UNDERSTANDING

I confirm that I have read and understood the disclosures in this illustration.

I fully understand that I will assume all investment risks associated with the policy. This illustration and the Acknowledgment of Variability shall form part of the insurance contract once the policy is issued.

ACKNOWLEDGEMENT OF VARIABILITY

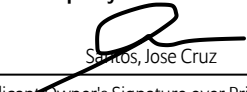

I acknowledge that:

I have applied with Allianz PNB Life Insurance, Inc. for a Variable Unit-Linked (VUL) Life Insurance Policy, and have reviewed the illustration(s) that shows how a VUL life insurance policy performs using company's assumptions and based on Insurance Commission's guidelines on interest rates.

I understand that I may apply to withdraw my funds in full or in part by filling out the prescribed form and submitting it to Allianz PNB Life Insurance, Inc., subject to the applicable rules and guidelines set by the Company. Any values shown in this illustration will be affected if premiums and/or withdrawals are not followed as assumed in the illustrated schedule.

I understand that since the fund performance may vary, the values of my units are not guaranteed and will depend on the actual performance at that given period and that the value of my policy could be less than the capital invested. The unit values of my VUL Life Insurance Policy are periodically published.

I understand that the investment risks under the policy are to be borne solely by me, as the policyholder.

Note:

For funds which are less than one year old within the calendar year, the returns shown is based on inception date.

These investment funds are linked to variable life insurance contracts and are not mutual funds, subject to regulations by the Insurance Commission. **Past performance is not indicative of the future or the likely performance of the funds.**

These investment funds are exposed, but not limited, to Interest rate risk, Marked-to-Market Risk, Foreign exchange risk, Credit risk and Issuer risk. The Net Asset Value per Unit (NAVPU) of each investment funds is computed as the Net Asset Value of the investment fund divided by the number of outstanding units of the investment fund on the Pricing Date, valued on a daily basis. The NAVPU of each investment fund is published every Friday on Philippine Star and is also available at our website www.allianzpnblife.ph.

Certified True and Correct:
